**Pre-planned route:**

## Observational walk

**Follow the instructions exactly on community observation to assess this community environment for advertisements and availability of local shops/public places and document in the following tables.**

**Walk down the street** for approximately 300 to 500 meters then cross the road and return walking back on the other side of the street returning to the spot opposite from where you started on the other side.

As you walk, look around you for advertising (e.g. billboards, posters, signs on shops, walls, bus stop shelters, advertisements on buses/cars etc.) and the types of shops. Each time you see one of the advertisements types or shops of interest listed below, mark a check or line in the Tally column.

At the end of your walk, total the tally columns for each row.

## Photographic assessment

**A series of photos will assist us in qualitatively comparing neighbourhoods and will also assist communities in identifying the locations researchers have assessed. We suggest the following photographs to be included in your assessment. Please carefully label all your photos with the date and community ID number.**

- a. Photo of the street scene in each direction from the **start point** (a minimum of 4 photos)
- b. Examples of **advertisements** that are classified in question 17a (please include one photo of each category of advertisement that is identified on your community observation walk)
